Exhibitor Rules & Regulations

Booth Construction

All booth displays must be constructed so as to appear “finished” on all sides that may be visible, including from all adjoining booths. For example, if the framework structure of a pop-up booth is visible from an adjoining booth, that framework will need to be covered so as to not detract from the appearance of the adjoining booth. All exhibit displays should be designed and erected in a manner that will withstand normal contact or vibration caused by neighboring exhibitors, hall laborers or installation/dismantling equipment such as forklifts.

Line of Sight

All exhibitors are entitled to a reasonable line of sight which varies by booth size and location. Generally, nothing should be over four feet (4') tall in the three feet (3') closest to the aisle. Regardless of the number of standard booths utilized, (e.g. 10'x20', 10'x30', 10'x40' etc.) display materials should be arranged in such a manner so as to not obstruct sight lines of neighboring exhibitors. The maximum height of eight feet (8') is allowed only in the rear of the booth space, with a four foot (4') height restriction imposed on all materials in the three feet closest to the aisle.

Standard Booth

A standard booth consist of an area 10'x 10'x8' high. All display material over four feet (4') high, must be set back three feet (3') from the main aisle.

Endcap Booth

An endcap booth is a 10'x20'x10' high booth exposed to aisles on three sides. The back wall is restricted to four feet (4') high within the three feet (3') closest to each aisle permitting adequate line of sight for the adjoining booths. The rest of the back wall can be no higher than ten feet (10'). Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy on the back side.

Split Endcap Booth

A Split Endcap is a 10'x20'x10' high booth exposed to aisles on three sides and shares a common back wall with another Endcap booth. In both cases, the entire cubic content of the booth may be used. Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy.

Peninsula Booth

Peninsula booths are any configuration of four or more booths exposed to aisles on three sides. Peninsula Booths are 20'x20'x16' high or larger. When a Peninsula booth backs up to two Standard Booths, the back wall is restricted to four feet (4') high within the three feet (3') closest to each aisle, in the back five feet (5') of the booth permitting adequate line of sight for the adjoining booths. The rest of the back wall can be no higher than sixteen feet (16'). Any portion of the back wall that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy on the back side.

**Island Booth/Split Island Booth**

An Island booth is exposed to aisles on all four sides. A Split Island Booth is a Peninsula Booth which shares a common back wall with another Peninsula Booth. In both cases, the entire cubic content of the booth may be used up to sixteen feet (16'). Any portion of the back wall within five feet (5') of booth perimeter that extends beyond the eight foot (8') curtain must be finished (no exposed framing or structure) and may not carry any ad copy.

Balloons

Helium balloons may be used as booth decorations if securely fastened within the height restrictions of booth type, but balloon distribution is prohibited.

Audio-Video/Music/Loud Demonstrations

Expo management reserves the right to limit or restrict sounds from any source that interfere with activities in neighboring exhibits. In general, sounds should be no louder than 85 decibels. As a matter of safety and courtesy to others, exhibitors should conduct sales presentations and product demonstrations in a manner which assures all exhibitor personnel and attendees are within the contracted exhibit space and not encroaching on the aisle or neighboring exhibits. It is the responsibility of each exhibitor to arrange displays, product presentation and demonstration area to ensure compliance. Special caution should be taken when demonstrating machinery or equipment that has moving parts or any product that is potentially dangerous. Exhibitors should establish a minimum setback of three feet (3') and/or install hazard barriers as necessary to prevent accidental injury to spectators. Demonstrations involving sound need to be limited in frequency and are at the discretion of show management. Generally, a neighbor across the aisle should not be able to hear your demonstration.

Hanging Signs and Graphics

Whether suspended from above or supported from below, they should comply with all ordinary use-of-space requirements. The highest point of any sign in any booth should not exceed the maximum allowable height for that type of booth. Hanging signs and graphics should be set back a minimum of five feet (5') from adjacent booths and aisles. Multi-sided signs, projection screens or logos may not face an adjacent booth. This will include back walls, side panels, headers and towers.

Floor Coverings

All exposed floor area contained within the booth must be covered with carpet or other appropriate floor coverings.

Variance

Height variance fee is \$100. Expo management, in its sole discretion, may make exceptions to the height restrictions for some exhibitors as it considers advisable. Any exhibitor requesting a variance must submit the request in writing along with written approval from the exhibitors affected by the variance. Please send requests to jgerman@bbiinternational.com.

ADDRESSES &
RECEIVING DATES**

International Fuel Ethanol Workshop & Expo 2019

Indiana Convention Center, June 10-12, 2019

Exhibitors may choose to ship freight to the advance warehouse or directly to show site. Valley Expo & Displays will receive and manage the freight at the warehouse and/or on show site as described in the following pages. Freight handling fees are paid to Valley Expo & Displays for these freight handling services, and are separate from and independent of freight transportation charges, which are paid to a freight carrier such as YRC, ABF, FedEx or any other carrier of the exhibitor's choosing. Exhibitors are responsible for securing a carrier of their choosing and arranging freight transportation to and from the event, and all associated transportation fees.

All inbound shipments must have a Bill of Lading and/or certified weight ticket showing the number of pieces, type of merchandise and weight. Shipments received without this information will be delivered to exhibitor's booth without guarantee of piece count or condition. No liability will be assumed by Valley Expo & Displays for such shipments. The weight is rounded up the next one hundred pounds (100 lbs) and is taken from the inbound BOL and/or certified weight ticket. Separate shipments will not be combined. Shipments arriving without a specified weight on the BOL will be assigned and approximate weight by Valley. This weight will prevail.

Authorization To Provide Freight Handling Services: By completing the Freight Handling Order Form, it is understood that Valley Expo & Displays and its subcontractors do not automatically insure materials, that insurance, if any, shall be arranged by the Exhibitor and the amounts payable to Valley Expo & Displays for drayage services are based on the value of the material handling services and the scope of Valley Expo & Displays liability as herein set forth. The amounts payable to Valley Expo & Displays are unrelated to the value of the Exhibitor's property being handled by Valley Expo & Displays or its subcontractor. It is impractical and extremely difficult to fix the value of each shipment handled by Valley Expo & Displays or its subcontractors. It is agreed therefore that if Valley Expo & Displays or its subcontractors should be found liable for loss or damage to Exhibitor's materials, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum equal to 30 cents per pound per article, with a maximum liability of \$500 per item, or \$1,000 per shipment, whichever amount shall be less, as agreed upon damages bit as a penalty, and such agreed upon damages shall be the Exhibitors exclusive remedy. Exhibits left on exhibit floor without return instructions will be returned to our warehouse and held for disposition at an additional charge. Valley Expo & Displays will not be responsible for condition, count or content until such time as exhibits or materials are picked up for removal after the close of the exhibition.

- Delivery dates and times are more flexible.

Estimating Material Handling Charges

- Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 lbs. Each 100 lbs. is considered one "cwt" (one hundred weight). All shipments are subject to reweigh. (200lbs minimum charged on all shipments weighing 51lbs - 200lbs)
- Select the category that best describes your shipment. There are two categories of freight:
 - Crated:** Material that is skidded or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
 - Special Handling:** Material delivered by a carrier in such a manner that it requires additional handling, such as ground unloading, stacked or constricted space unloading, designated piece unloading, shipment integrity, alternate delivery location, loads mixed with pad wrapped material, carpet and/or pad only shipments, no documentation and shipments that require additional time, equipment or labor to unload. **Federal Express, UPS Ground, & DHL** are included in this category due to their delivery procedures.
- Add Overtime and/or Double Time surcharges for inbound if material is delivered to the booth during the overtime and/or double time period.
- Add Overtime and/or Double Time surcharges for outbound if material is loaded onto the outbound carrier during the overtime and/or double time period.

OUTBOUND SHIPPING INFORMATION

International Fuel Ethanol Workshop & Expo 2019 Indiana Convention Center, June 10-12, 2019

Outbound shipping is not an automatic process. Each shipment must have freight handling services on order and a completed Bill of Lading in order to ship materials from the show. All pieces must be labeled individually. After materials are packed, labeled and ready to be shipped, the completed Bill of Lading must be turned in at the Valley Service Desk. **Do not leave this in your booth with your shipment.** Call your designated carrier with pick-up information. In the event your carrier fails to show by carrier check in time indicated on the shipping information form, your shipment will be rerouted to Valley Expo & Displays' official show carrier at exhibitor's expense.

Tear Down

The show closes at **1:30pm** on **6/12/2019**. Please do not tear down prior to the close of the show. Empty crates will be brought to your booth after Aisle carpet is removed.

Outbound Pick-Up Address & Carrier Check In

- All outbound shipments must be picked up at the show site location.
- Each exhibitor is responsible for arranging prompt pick-up and removal of outbound shipments. If you are using a carrier other than the official show carrier, it is your responsibly to contact the carrier and advise them that they must be checked in and the appropriate times.
- Drivers are placed in line for loading on a first-come, first serve basis, provided the exhibitor is completely packed and a Bill of Lading has been turned into the Service Desk. Should your carrier fail to check in by the designated time, Valley Expo & Displays reserves the right to re-route the shipment via the official show carrier as necessary, at the exhibitor's expense.

Carrier check in Date and Time: 6/12/2019; 3:30pm

Outbound Bill of Lading

- All outbound shipments require a Valley Bill of Lading. Bills of Lading will be distributed to your booth before move out. If you do not receive a bill of lading please see the Valley Service Desk.
- A Bill of Lading must be completed for each truckload and destination. If you have multiple shipping destinations or multiple truckloads to one destination, additional Bill of Ladings are available at the valley Service Desk.
- No Bill of Lading will be issued until your invoice has been paid in full.
- Return the completed Bill of Lading to the Valley Service Desk when your materials are packaged and ready to be shipped. Turning in your Bill of Lading indicates to Valley that your shipment is ready to be loaded.
- The name of the carrier listed on your completed Bill of Lading must match the name of the carrier checking in or your freight will not be released.

**SUPPLIED DIGITAL
ART STANDARDS**

International Fuel Ethanol Workshop & Expo 2019
Indiana Convention Center, June 10-12, 2019

ADVANCE PRICE DEADLINE:
May 17, 2019

Supplied Digital Art Standards

In an effort to provide you with the best graphics for your display, Valley requests that you review these file and media requirements when you supply digital art. Supplying the proper files insures that your output will look the way you expect, and keep additional charges to a minimum. If you have questions about file formats, resolution, or other graphics concerns, please call us at **815-873-1500** or e-mail events@valleyexpodisplays.com

Raster (Pixel-based) Art -

Raster art is the way most continuous tone images are produced. Scanned images, Photoshop files, tif, jpg, & bmp are examples of raster or pixel-based art. Resolution for these files should be at least 300dpi *at output size*. For example, a file for 16 x 20 inch output should be 4800 pixels by 6000 pixels. Both cmyk and rgb are acceptable but **cmyk is preferred**. **Its helpful if all your files are consistently one or the other.**

Use for:

Photographic or continuous tone images.

Vector Art -

Vector art is 'resolution independent', meaning it can be scaled to any size with no loss of quality. Illustrations created in Adobe Illustrator or Freehand are vector art. EPS files are the most common format for vector art.

NOTE: A Raster image imported or placed, and then saved in these programs is not changed into vector art...*it is still a raster image* and may not be suitable for some output options.

Logos & illustrations produced as cut vinyl **MUST** be vector art. If you cannot supply vector art, you may be charged for the time required to convert/recreate your art in the proper format.

Use for:

Cut vinyl, large format text, logos, graphic elements.

Art Size: Art files should be submitted with at least 0.5" bleed. (ex. 22" x 28" sign would be 22.5" x 28.5")

Raster Art can be supplied as Photoshop, jpg, tif, eps, bmp or other standard raster formats.

Vector Art should be **Adobe Illustrator (.ai), InDesign (.indd) or .eps (from Illustrator or InDesign)** files with text converted to paths. Include all linked files. If text is not converted to paths, all fonts must be included. When sending vector art use the package option in Illustrator or InDesign to properly export all necessary files.

QuarkExpress users, supply eps files with fonts embedded. Native Quark files are no longer supported.

Media: CD or DVD. For FTP access contact your Valley representative.

Please include a color hardcopy or pdf. Critical PMS colors should be indicated on the hardcopy.

Overview

Smart City is the exclusive provider for wired and wireless services for the Facility and has in operation a comprehensive wireless 802.11 network. The actual maximum bandwidth available depends on how many users are accessing the network simultaneously at any given time dependent upon the type of service purchased. Router, Streaming Applications, VoIP, DHCP, NAT or Proxy Servers are not allowed with this connection. Smart City can engineer custom dedicated network(s) to achieve your company objectives. Please contact us at (888) 614-2637 to discuss your network design.

Custom Wireless Networks

If you require wireless 5 GHz access for application demonstrations, Smart City is able to build a custom 5 GHz wireless network in your booth. Please call Smart City at (888) 614-2637 for a custom wireless quote.

Internal Networks

Smart City is the exclusive provider of all voice, wired and wireless data services. Wireless Devices not authorized by Smart City are strictly prohibited. Smart City requires all Customers showcasing their wireless products to contact Smart City 21 days prior to the show move-in so that we may engineer a cohesive network operating without interference (all approvals will incur a Wireless Engineering Management Fee). Please provide Smart City with the make and model of your wireless router for network approval (wireless access points without adjustable power outputs cannot be authorized under any circumstances). Wireless devices need to be programmed on-site following Smart City guidelines.

Customer Acceptance

Wireless service is inherently vulnerable to interference from other devices that transmit similar radio frequency signals or that operate within the same frequency spectrum. Smart City does **NOT** recommend wireless service for mission critical services such as presentations or product demonstrations that can accept a wired connection. Per our Terms and Conditions listed on Smart City's Customer Contract, misuse of any wireless service may result in service interruption to yourself or other Customers and can lead to disconnection of the Customer's equipment. **No service refunds will be given.**

ALL WIRELESS ACCESS POINTS NOT AUTHORIZED BY SMART CITY ARE PROHIBITED.

I hereby attest that I understand the limitations and vulnerabilities of the wireless service provided by Smart City. I also understand that if I use this service for any reason including, but not limited to, demonstrating, showcasing or presenting my product(s), Smart City will not be responsible for possible interference that I may experience. Upon receipt of the completed Smart City Contract, Smart City Services will be activated / available for your use.
